The world has been ending for 600 years. The end is coming it's inevitable. The end to the end is a new beginning. It will begin the nothingness until They create the somethingness. The world has been born, has died, and has been reborn 345 times now. Each time we go wrong They start the destruction sequence. The 36 phases of planetary destruction are long and grueling but they will destroy us. Phase 36 is coming soon, the final phase. We must stop it. They are no longer the caring parents of the past, They have changed and we must not. We have five days, three hours, twenty seven minutes, and 56 seconds

Log:

4 Days, 19 Hours, 15 minutes, and 39 seconds.

Our unit is growing tired and weak. We have two days, tops, worth of these measly food preserves. We are losing focus, overcome by the weight of the inevitable end. We are slipping from our task at hand; the mission cannot fail. Only 4 days and a bit before it's all over.

Why am I doing this again? Why do I think we can win, that we can pull through and be celebrated heroes of our new liberated society?

No I won't let this bullshit get to me. What else am I to do? Sit back and watch the fireworks?

Fuck that. I've seen a planet explode. See more of Story Wars. It ain't as pretty as you think.

We have less than 24 hours. Login or Create new account Protocol 42. Let's just hope Draken and his group complete their mission.
